Copper Banded Oak Barrel Stool with Leather Top; English, Circa 1870.

List: \$1,600

Copper banded oak barrel stool with leather top
English circa 1870
height: 21 in. (53 cm), diameter: 14 in. (36 cm)

A smaller barrel of this kind would have been used as storage for small batch production of spirits, grains, or perhaps coal. The later padded leather & nailhead trim top suggests adaptation for seating, decorative use or table; possibly a pub stool.

- Item Number: JG23083240
- Country: England
